

eLearning for professionals

Help kids to read, play and learn with books

Sharing stories from birth gives children a great start to life. The 3½ hour Let's Read online professional development course will support you to:

- foster emergent literacy with children—from babies to pre-school age
- create environments and experiences that support language and literacy growth
- encourage families to share books, songs and nursery rhymes with their children.

Support your centre

This course will help your team to address the Early Years Learning Framework and the National Quality Standard:

- Support children to gain meaning from texts in different media and begin to understand how symbols and pattern systems work. (EYLF Outcome 5)
- Gain program ideas that contribute to children's learning and development as communicators. (NQS Element 1.1.1)
- Use books and reading in meaningful, open interactions with children that support skills for life and learning. (NQS Element 5.1.2)
- Provide information and resources to families. (NQS Element 6.2.2)
- Support performance improvement by making this course part of your individual development plans. (NQS Element 7.2.2)

Enrol now

Enrol in the Let's Read eLearning Course or choose from centre-wide eLearning packages with the option of incorporating face-to-face learning.

Find out more overleaf and visit www.letsread.com.au/professionals/training to enrol.
